OBJECTIVE

Skilled and motivated Web Developer with expertise in Next JS framework seeking to leverage my technical proficiency and creative problem-solving abilities to contribute effectively to innovative web development projects. Dedicated to delivering high-quality, scalable solutions while staying abreast of emerging technologies and industry best practices. Eager to collaborate with dynamic teams to create engaging and efficient web experiences that exceed client expectations.

WORK EXPERIENCE

Company: SoftTech Engineering

Position: Web Developer, 2021-2022

Experienced:

- Working routine on time joining.
- GitHub.
- Team Work.
- Understanding Project Planning and collecting resources.
- Fast Delivery and building project for finding problems before production.
- Manage Projects Before Deadline.
- Handling Full Project.

Project: Oritina

Live Link: <https://oritina.vercel.app>

Project Description:

- Oritina is a modern e-commerce destination for clothing, built as a full-stack application with Next.js, PostgreSQL, DrizzleOrm. Customers can browse collections, read and contribute to the style blog, and checkout securely with Stripe. The platform is supported by a sophisticated admin dashboard for managing all aspects of the store, and is architected using Next-Auth, Zustand, and Uploadthing for a seamless development and user experience.

Project: Next-Mart

Live Link: <https://nextmart-nine.vercel.app>

Project Description:

- Next Mart is an e-commerce website built with Next.js and Node.js where users can shop for products online. The platform uses Redux for state management and Tailwind CSS for styling. Customers can browse products, add them to cart, and make secure payments through the SSLCommerz payment gateway. The entire application is developed with TypeScript for better code reliability.
